Importance: High

Debbie:
As part of the 2RF Capital request, we need to include money for any equipment you think we will need to purchase for the biological rapid screening lab. I need to submit final numbers by next Thursday. Can you please pull together an estimate? I'll need to know as much detail as possible (e.g., specific type of equipment) as well as a forecast of when expenses will be paid by month. If you want to pull some information together and then discuss, let me know.

Thanks,
Valerie
